

3 Minute Express Car Wash

COVID-19 Update

During this uncertain time, our priority is the health and safety of our Customers and Employees.

Now more than ever, keeping our cars clean is vital to preventing the spread of microorganisms like SARS-CoV-2 that causes the Coronavirus disease (COVID-19). 3 Minute Express Car Wash provides this essential service and remains open to serve our community, including emergency vehicles, law enforcement, ridesharing, taxis and delivery vehicles.

Here is what we are doing to address COVID-19 at all our locations:

- Staffing reductions
- Increasing Employee handwashing frequency
- Increasing cleaning and disinfecting of pay station touch screens, vacuum hoses and doorknobs
- Requiring that our Customers and Employees keep at least 6 feet apart from others
- Requiring any Employee with respiratory issues to stay at home

These changes comply with recommended CDC guidelines and are validated by government officials.

On March 19, the Department of Homeland Security issued a memorandum describing essential critical infrastructure workers. Automotive facilities such as car washes were identified for their roles in supporting critical services such as health care, public safety and food distribution. Therefore, 3 Minute Express Car Wash (which is categorized under NAICS code 8111 "automotive repair and maintenance") qualifies to continue operating during Arizona's restrictions for essential businesses.

Finally, we sincerely thank the medical providers who are fighting for us on the front lines of this COVID-19 battle. If you are a medical provider, we will wash your car for free during the month of April 2020. Thank you everyone for your understanding and continued business. Please let us know if you have any questions or suggestions. Stay safe and healthy!
